About

This live wiki is hosted on the open internet and edited by hams on the west coast area of BC. Once a day, it is mirrored to a read-only copy hosted on VA7FI's Linux Server accessible only on the West Coast AREDN. This is so that:

- This live wiki can be accessed by people new to AREDN and stay accessible regardless of what may happen to VA7FI's node, and
- The read-only copy can be accessed by hams without an internet connection via AREDN.
